

# Energy & Utilities Factsheet

## ABOUT THE ACE GROUP

The ACE Group, operating in more than 50 countries worldwide, has built a global reputation as one of the premier providers of insurance, reinsurance and financial products and services.

In the Asia Pacific, ACE is an extensive network of operations serving Australia, Hong Kong, India, Indonesia, Korea, Malaysia, New Zealand, Philippines, Singapore, Taiwan, Thailand and Vietnam. Our presence in China is driven by a strategic partnership with the Huatai Insurance Company, in which we are the single largest shareholder.

## ENERGY & UTILITIES

The ACE Energy & Utilities unit comprises a team of underwriting and risk management professionals who are focused on the specific risk requirements of the Energy & Construction sectors. The team leverages ACE'S global strengths in this business area to develop global and local solutions according to the client's needs. Serving all of Asia Pacific, the ACE Energy & Utilities unit has an integrated niche insurance model offering a full suite of products for Energy & Utilities' related entities encompassing coverage and risk management for:

- Power & Utilities facilities
- On-shore & Off-shore Oil & Gas facilities
- Construction & Erection
- Energy Casualty exposures
- Boiler & Machinery

## KEY PRODUCTS

### Power & Utilities

The ACE Group is widely recognized as a global leader in providing all risk property insurance for all types of power plants and power stations. We have the capacity to manage a wide range of exposures in this specialized area.

### On-shore & Off-shore Oil & Gas

Our comprehensive products and services portfolio encompasses the entire spectrum of oil & petrochemical protection. From exploration coverage to onshore and offshore facilities, we provide specific underwriting solutions to meet the specialized needs of each client.

### Contractors' All Risk & Erections All Risk

ACE's Contractors' All Risk Policy embraces construction of static structures. Our preferred types of contracts are in the construction of commercial buildings (offices, retail, etc) and private housing, for which ACE can provide the finished operation covers.

ACE's Erections All Risk Policy provides cover for all types of machinery installation projects ranging from small manufacturing plants for textiles, and light engineering to huge industrial projects such as refineries and power stations.

### Energy Casualty Exposures

Our comprehensive range of products and services encompasses all aspects of legal liability exposures and risks affecting operators, facilities and contractors across the entire Energy industry in the Asia Pacific. We provide the coverage required to maintain the financial stability and professional reputation of each client.

### Boiler & Machinery

Boiler and machinery breakdown coverage is available on all types of machinery and manufacturing equipment and plants across a spectrum of industries as a mono-line product or as part of an all risks package. Depending on specific requirements, we are able to provide seamless coverage.

## OUR STRENGTHS

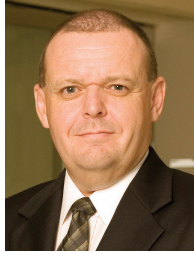

- Regional capabilities backed by global reach and underwriting excellence
- Deep industry insight and understanding of geo-political risks
- Large capacity especially for the more complex, heavy industrial engineering projects
- Financial strength for secure broad form of legal liability
- Custom tailored, cost-effective risk management solutions
- In-house regional claims expertise
- Long term focus on client relationships
